KERANIS

Residences

THE LANDMARK OF PIRAEUS

THE HISTORY BEHIND THE BUILDING

A historic industrial landmark reborn as Keranis Residences, offering a new chapter in city living through the Golden Visa Investment Program.

The project involves the conversion of the former Keranis factory into modern residential units, transforming a long-unused structure into a thriving urban living space.

With a prime location in Piraeus, this redevelopment preserves the building's heritage while offering a contemporary lifestyle, making it an ideal investment opportunity.

This 20th-century factory was once a key part of the city's industrial expansion. Spanning 28,700sqm, it played a vital role in the local economy, evolving over decades before closing in the early 2000s.

Left vacant for years, a new vision emerged, reimagining the site as a dynamic urban development - a blend of history and modern living.

Now, as Keranis Residences, it marks a fresh chapter for Piraeus, honoring its past while embracing the future.
