Colourful Alfama

Built atop a series of hills, the steep streets of Alfama are lined with delicious cafés, historic sites and quaint shops selling traditional crafts. The all time 28 tram winds through on its way up to the 11th-century São Jorge Castle and the views from Miradouro da Graça terrace stretch beautifully over the city all the way to the River Tagus.

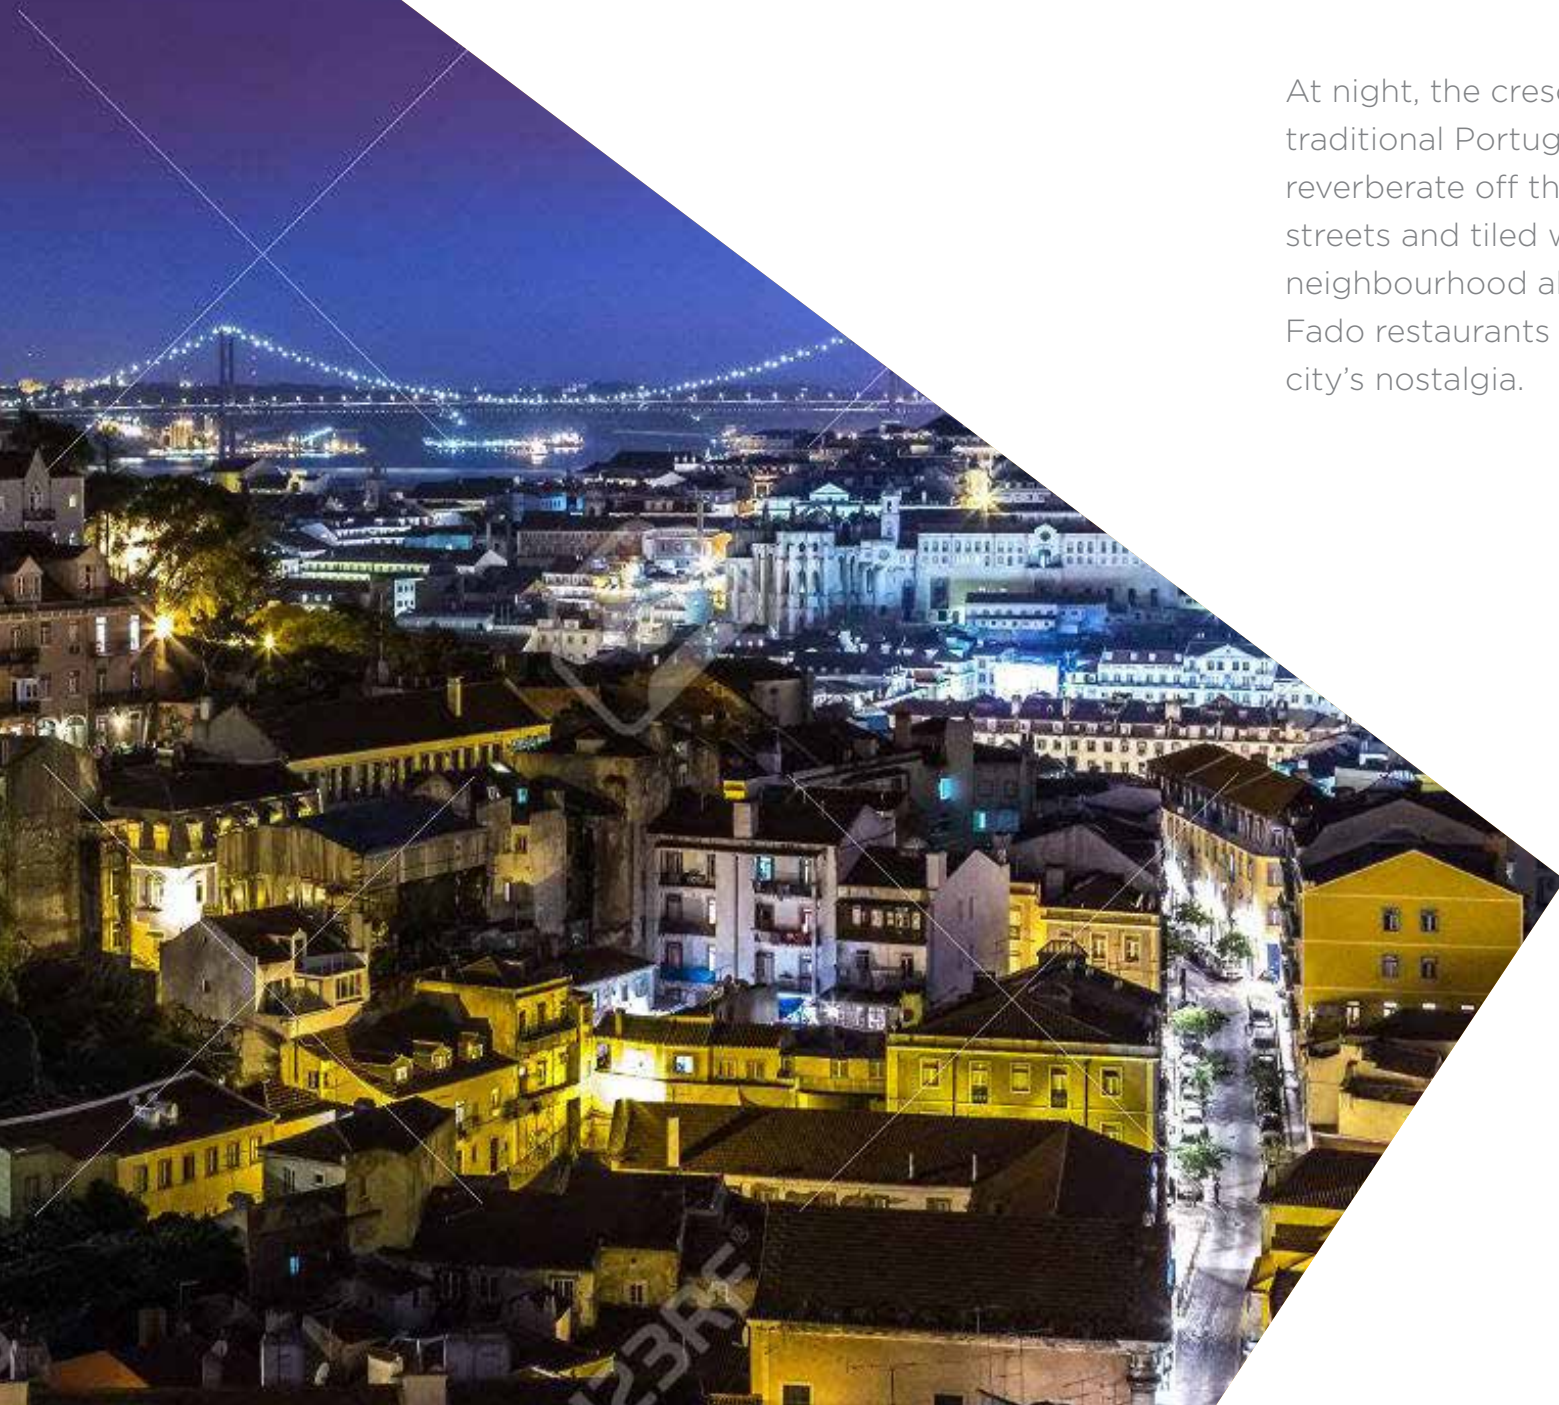

Construída sobre uma série de colinas, as íngremes ruas de Alfama estão revestidas de deliciosos cafés, sítios históricos e singulares lojas de artesanato tradicional. O intemporal eléctrico 28 passa a caminho do centenário Castelo de São Jorge e as vistas do Terraço do Miradouro da Graça estendem-se graciosamente sobre a cidade percorrendo todo o trajeto até ao Rio Tejo.

Lisbon's historic heart

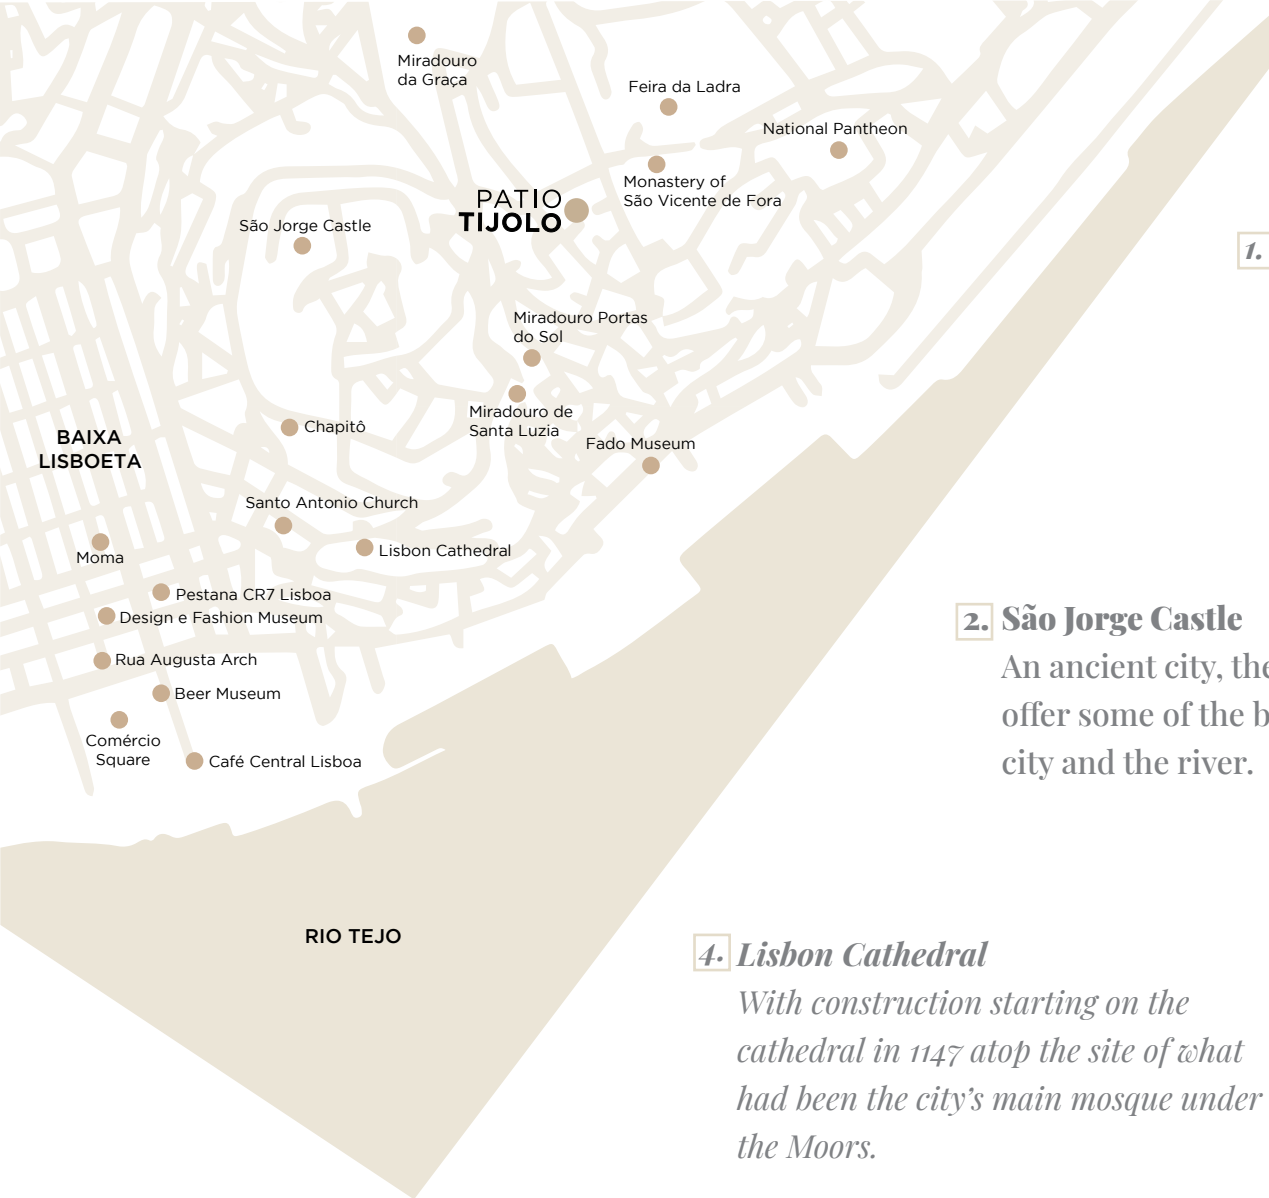

At night, the crescendoes of live traditional Portuguese music reverberate off the cobble stone streets and tiled walls of the neighbourhood alleys as typical Fado restaurants cater to the city's nostalgia.

Mastering the art of design & architecture

Com imponentes janelas que convidam a deslumbrante luz de Lisboa, o complexo de edifícios está dividido em dez estúdios exclusivos e oito contemporâneos apartamentos de um quarto e sala.

Perched on the western edge of Europe, Lisbon is the continent's sunniest capital city and the fact that it was built across seven hills means nearly every street affords immensely satisfying views over the city as it slips down towards the river.

Situada na ponta oeste da Europa, Lisboa é a capital com mais sol do continente e o facto de ter sido construída sobre sete colinas quer dizer que a maioria das suas ruas têm uma vista extremamente agradável sobre a cidade à medida que esta vai descaindo em direção ao rio.
